Doghouse-Cupboard Designer – Engineers & Technicians (m/f)

GURUCAD_03_0213_GC05

Your responsibilities

- Execution of projects and subprojects in close coordination with the project team and the customer
- Concepts creation and detailing of Doghouse-Cupboard components for Single-Aisle, Long Range, A380, A350 XWB, B737, B747 and B787
- Flex-Zone based parametric modeling of Doghouse-Cupboard (ability to work with Master Models)
- Checking and implementing OEM's/MRO's requirements (Tolerances, Adjustability, Stress/Deflections...)
- Lower/Side Attachments concepts and detailing in close relation with manufacturing and stress
- Manufacturing and Installation drawings creation according with OEM's/MRO's Rules
- DMU SAM Models creation, update and integration in the customer DMU
- Quality checks and reports creation
- Preparation of Certification Documents, Specifications and Manuals

Your competences

- Open minded innovative thinking
- Engineering/Technician degree in Aerospace or Mechanical engineering
- Several years of experience in designing Doghouse-Cupboard Passenger, ideally gained in the Airbus or Boeing environments (including their MRO's/RSP's)
- at least one year of experience in the design with CATIA V5
- good MS Office Package knowledge (Word, Excel, PowerPoint and Outlook)
- very good German and English knowledge, spoken and written (if there are exceptional technical skills we can make a compromise and require only the knowledge of one language)
- strong communication skills (interface with customer design/stress/manufacturing/production teams)
- a high level of teamwork, flexibility and customer-oriented approach
- an advantage design knowledge of one or several from the following cabin interior items: Partition/Class Divider, Stowage/Cabinets, Galley, Lavatories, Hatracks, FCRC/BCRC, VCC, Side-Wall/Dado/Ceilings/Door Panels.
- an advantage knowledge of A350XWB Airbus Toolset: PDMLink SSCI / PDMLink CC and VPM
- an advantage experience in project management (project reporting and follow-up)

You are interested in joining our team and build your reputation as an expert in the cabin interior design? If the answer is yes, please send us your complete application documents on the following email address: hr@gurucad.com.
